

Well-Qualified
And Confirmed By

Core Component Upgrade and Optimization

Upgraded Pcb
Performance Enhancement

Upgraded Transducer
Frequency Is More Stable

Well-Qualified
And Confirmed By

Professional Ultrasonic Cleaning Machine

High-Frequency 40KHz Cleaning Precision Cleaning Starts with Higher Frequency

Highly effective
stain removal

No damage to
the workpiece

40KHZ

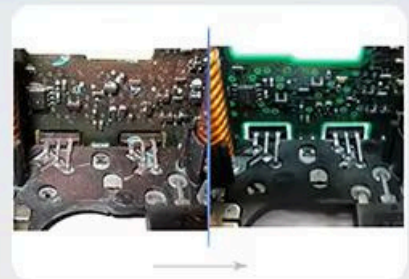

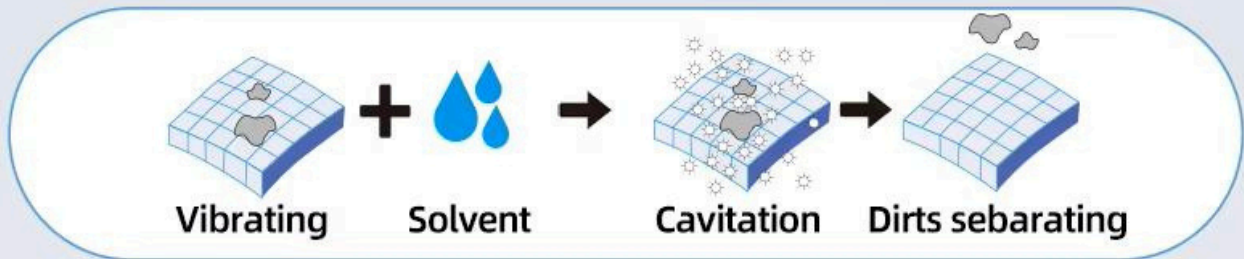

Well-Qualified
And Confirmed By

360° All-Round Deep Clean

High power, large capacity, can be used in industrial

Well-Qualified
And Confirmed By

Advanced Transducer Technology

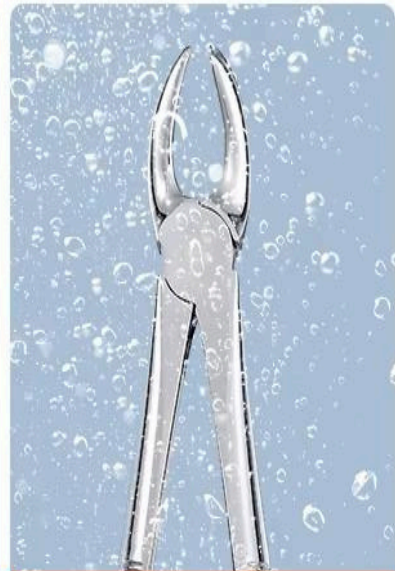

Effortlessly destroys insoluble stains

Generates millions
of tiny bubbles

Vibrations caused
by bubble implosions

Stubborn stains
are completely removed
